## Standard Magnetic Wand

Our standard magnetic wand fits in your hand like a pencil. It's lightweight, retractable and 5.37" overall in length. Each wand weighs 1 ounce. Comes with a protective case.

CAT. NO. 3730 .....

## Megawand

Our megawand will hold three times the amount of powder as our standard wand. The megawand features spring-loaded injection. It is 5.90" overall in length and weighs 1.6 ounces.

CAT. NO. 3731 .....

## Gigawand

Our gigawand fits most types of powder containers. It holds 9 times the amount of powder as our standard magnetic wand and comes with spring-loaded injection. It is 6.62" overall in length. It weighs 6 ounces.

CAT. NO. 3732 .....

## Magnetic Latent Print Kit

Our magnetic latent print kit contains the materials necessary to efficiently develop latent prints using magnetic powder techniques.

Magnetic Latent Print Kit comes with:

- 1-No. 3730 Magnetic Powder Applicator
- 1-No. 3722 1-ounce jar of Black Magnetic Powder
- 1-No. 3723 1-ounce jar of Gray Magnetic Powder
- 1-No. 3726 1-ounce jar of White Magnetic Powder
- 1-No. 3728 1-ounce jar of Silver/Black Magnetic Powder
- 1-Molded Plastic Carrying Case with Inserts

# Magnetic Fingerprint Powders

## Magnetic Powder Options:

- 1-ounce volume (Approx. 3-oz. weight depending on color selection)
- 16-ounce volume (Approx. 46-oz. weight depending on color selection)
- 6-ounce extra-wide powder pack (Approx. 15-oz. weight depending on color selection)
- 128 oz. bulk pail

Worried about damaging fragile latent prints? Then you'll really appreciate our magnetic powders—because they're derived from the finest ferrous materials. Powders are sold by weight.

# Fluorescent & Dual Purpose Fingerprint Powders

## Magnetic Fluorescent Powders

These powders provide the same brilliant detail as regular fluorescent powders, only they're designed for use on nonferrous surfaces. Apply with one of our magnetic wands. These powders are approximately 3-ounce weight and 1-ounce volume. Choose from 4 colors.

CAT. NO.	DESCRIPTION	PRICE
ALL601	Red Fluorescent Magnetic	
ALL602	Orange Fluorescent Magnetic	
ALL603	Green Fluorescent Magnetic	
ALL605	Yellow Fluorescent Magnetic	

## Regular Fluorescent Powders

These powders are ideal for developing latent prints on a variety of surfaces. When used with our BLUEMAXX™ or ultraviolet lights (pictured on pages 79, 86-89), these powders will provide brilliant detail. Available in 2-ounce jars. Choose from 5 colors.

CAT. NO.	DESCRIPTION	PRICE
ALL701	Red Fluorescent Powder	
ALL702	Pink Fluorescent Powder	
ALL703	Green Fluorescent Powder	
ALL704	Silver/Red Fluorescent Powder	
ALL705	Yellow Fluorescent Powder	

## FinePrint Magnetic Powder

FinePrint Magnetic Latent Print Powder is the result of years of research and development. Our regular magnetic powders are already the best available, but there was a need for a dual purpose powder for finer dusting applications. FinePrint dual purpose powder makes prints on dark surfaces appear light and prints on light surfaces appear dark. It utilizes powders that have been milled to average particle sizes that are less than half the size of regular magnetic powders. This powder is very effective on glass, plastic, wood, ceramic, and metallic surfaces — use on paper surfaces without leaving dark backgrounds. It works well on imitation and genuine leather if developed within a short time of being handled. *(Application of FinePrint does not interfere with ninhydrin, DFO, or other chemical treatments.)*
