

# Bluemaxx™ Forensic Illumination

The BLUEMAXX™ is a portable light source designed to illuminate crime scene evidence through fluorescence—evidence that you otherwise would not be able to see, such as bodily fluids like semen, urine and saliva stains, as well as latent prints that have been processed with fluorescent powders and dyes. Ideal for investigating crime scenes at night and in darkened rooms, the BLUEMAXX™ also produces excellent results in artificially darkened settings, such as in a laboratory or in a car. Here's how. The BLUEMAXX™ emits a blue ray of light at a wavelength between 390 and 505 nanometers. Some bodily fluids and fibers naturally fluoresce when exposed to light at this wavelength. Latent fingerprints, when treated with our fluorescent dyes and powders will also fluoresce. To locate this evidence, just look through the BLUEMAXX™'s barrier filter shield or goggles. The BLUEMAXX™ also can be used to photograph evidence that fluoresces.

## Standard BLUEMAXX™

The standard BLUEMAXX™ is a portable light source used to illuminate fluorescent evidence at crime scenes and in the crime lab. It is constructed of rugged ABS plastic and features a krypton, high-intensity 3.7-volt/2.6-watt bulb. The light comes with an excitation filter for viewing evidence. The filter is extremely durable when exposed to heat, humidity, shock and abrasion and it meets or exceeds MIL-C-675A and MIL-M-13508C specifications. Batteries are not included.

## Rechargeable BLUEMAXX™

The rechargeable BLUEMAXX™ is constructed of rugged ABS plastic and features a 30,000-candlepower, 6-volt/10-watt halogen lamp module. The light comes with an excitation filter for viewing evidence. The filter is extremely durable when exposed to heat, humidity, shock and abrasion and it meets or exceeds MIL-C-675A and MIL-M-135086. A rechargeable nickel cadmium battery, a 115V AC battery charger and 12V DC adaptor are included.

# Bluemaxx™ Forensic Illumination

- Mini Bluemaxx™ Kit comes with:
- 1- Mini Bluemaxx™ forensic light
  - 1- Barrier shield assembly
  - 1- Barrier filter goggles
  - 3- "AA" batteries
  - 1- Instruction manual
  - 1- Carrying case.

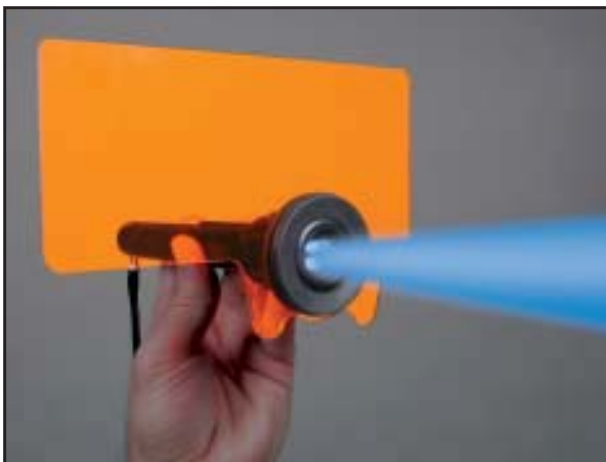

The Mini Bluemaxx™ Forensic Light Kit

## New! Mini BLUEMAXX™

The Mini Bluemaxx™ is excellent for locating and photographing a variety of forensic evidence such as urine, saliva, semen and latent prints enhanced with powders and dyes. Like the Bluemaxx™, it emits a blue light that is viewed through an attached orange barrier filter or barrier filter goggles.

The Mini Bluemaxx™ is small (7" long, 1" dia.) — but powerful — using 4 blue LED's and 3 "AA" batteries to provide over 300 hours of undiminished light.

The Mini Bluemaxx™ is a compact and durable unit featuring rugged, shockproof and waterproof construction that will provide years of trouble-free service.

Locate physiological fluids such as urine, semen and saliva with the Mini Bluemaxx™.

The new compact Mini Bluemaxx™ alternate light source.

## Forensic Examination and Photography

### BLUEMAXX™ Forensic Examination and Photography Light Kit

The BLUEMAXX™ forensic examination and photography light kit was designed specifically for forensic examination and photography. The light is a smaller, yet more powerful version of the standard BLUEMAXX™. When you're examining or photographing a crime scene, simply mount the light to a tripod for uniform lighting. The light features an intensity control switch so you can photograph a small item or an entire room. Use it indoors and outdoors at night. You'll be able to photograph bodily fluids as well as surfaces treated with fluorescent powders and dyes.

BLUEMAXX™ Forensic Examination and Photography Light Kit comes with:

- 1-No. ABM6001 Light with Bulb, Reflector, Excitation Filter and Intensity Enhancement Control
- 1-12-Volt Precision Power Supply Operating From 120V AC
- 1-10' Cigarette Lighter Adapter Cord for Outdoor Operation
- 1-12' Extension Cord
- 1-No. ABMS300 Pair of Barrier Filter Goggles
- 1-No. ABM6001C Carrying Case with Custom Inserts
- 1-17½ x 10¼ x 8 7/8 Carrying Case

# BLUEMAXX™ Kit

## BLUEMAXX™ Master Fuming and Evidence Locating Kit

This is the top-of-the-line BLUEMAXX™ kit which offers the investigator the capability of handling a wide variety of crime scene circumstances. This kit provides the tools for locating physiological fluids (for subsequent collection), locating and developing fingerprints, enhancing the prints with forensic dyes and powders, and for lifting and processing the latent prints.

The kit includes the No. ABM2000 rechargeable portable forensic light along with an expanded inventory of fingerprint developing tools and agents. A practical assortment of both regular and magnetic fingerprint powders and a generous selection of dusting tools for both methods are included.

The kit also features a No. ACW100 superfume kit for the added versatility of on-the-spot glue-fuming at the crime scene. Cyanoacrylate-developed prints may be enhanced with fluorescent powder and illuminated with the BLUEMAXX™ forensic light for photographing, if desired. To aid in the final step, the kit includes an ample variety of fingerprint lifting supplies.

### BLUEMAXX™ Master Fuming and Evidence Locating Kit Includes:

- 2-No. 1561B Black Marabou Feather Dusters
- 1-No. 1561W White Marabou Feather Dusters
- 1-No. 3732 Gigawand
- 1-No. 3731 MegaWand™
- 1-No. TAW1 Transoflips , White, 2" x 4", 12 each
- 1-No. HAW1 Transoflips, White, 2" x 4", 12 each
- 1-No. 4753 Fingerprint Lifting Tape, Transparent, 2" x 360"
- 1-No. 4755 Fingerprint Lifting Tape, Transparent, 4" x 360"
- 1-No. 01022 Magnifier, 3" dia.
- 1-No. ABM2000 Bluemaxx™ Rechargeable Forensic Light (ABMFE001 only)
- 1-No. ABM2000220 Bluemaxx™ Rechargeable Forensic Light, 220V AC (ABMFE002 only)
- 1-No. ABMS300 Barrier Filter Goggles
- 1-No. 2214 Reversible Backing Card, 100 each
- 1-No. 9696 Scissors, 5"

- 1-No. 6889 Penlight, 2 AA, 1.5 Volt
- 1-No. 9698 Pocket Notebook
- 1-No. Spray Head, White, Adjustable
- 1-No. ALL601 Red Fluorescent Magnetic Powder, 1 oz.
- 1-No. ALL603 Green Fluorescent Magnetic Powder, 1 oz.
- 1-No. ALL605 Yellow Fluorescent Magnetic Powder, 1 oz.
- 1-No. ALL701 Red Fluorescent Latent Print Powder, 2 oz.
- 1-No. ALL705 Yellow Fluorescent Latent Print Powder, 2 oz.
- 1-No. ALVS500 Basic Yellow, After Fuming Fluorescent Dye Spray, 500 ml
- 1-No. ACW100 Superfume Fingerprint Kit
- 2-No. ACW200 Superfume Cartridge Packages, 10 per package
- 3-No. 6705 Latex Disposable Glove Pairs
- 1-No. ABMFE0011 Carrying Case, Leatherette-Vinyl Covered
- Dimensions: 24 1/4" x 16 3/4" x 8 3/4"
