## "Chlorine-Free" (Non-Vinyl) Medium Duty Body Bag

These "Chlorine-Free" bags are made of a custom-manufactured material designed to eliminate environmental problems associated with traditional vinyl cadaver bags. Bags remain flexible down to -70° F so they can be used in cold outdoor environments or in morgue coolers without fear of "cracking" the material. This material complies with EPA burn restrictions involving the release of chlorine gas. Comes with BBID Kit (shown below).
