

FAC II® Powder/Brush Delivery System

FACII® Compact Brush and Powder Dispenser

The unit is comprised of a brush made of fiberglass filaments, a retractable sleeve and a powder reservoir. The sleeve is made of aluminum and covers the brush when it's not in use—protecting the cluster and ensuring maximum cleanliness! The 1-ounce powder reservoirs are available in 6 colors. Small and lightweight enough to carry in your pocket, the FACII® offers you one of the cleanest and most efficient ways to dust for prints.
