

# Transolift™ Print Lifters and Transheets™

## Transolift™ Print Lifters

Preserve latent prints with our Transolift™ print lifters. They are 5mm thick and coated with a clear adhesive for maximum print clarity. They're available in several different sizes to meet your lifting requirements. Order in quantities of 50 or 100. Recommended for use on nonporous surfaces such as metal, glass, wood and smooth plastic.

CAT. NO.	DESCRIPTION	QUANTITY	PRICE
SA5	1" x 1½" Transolifts™	50	
SA1	1" x 1½" Transolifts™	100

# Transoflips™

Transparent

Black

White

The Transoflip™ is a pre-assembled device that combines the lifting medium (acrylic adhesive on a 5 mil [.005"] clear acetate tab) and a backing sheet of either clear acetate or opaque vinyl. The hinge concept means that the lifter and backing material are a one-piece unit, ready to lift, seal and protect fragile latent fingerprints.

## Immediate Comparisons

Immediate comparisons may be made with suspected prints. The print may be used directly for contact prints or enlargements. Foolproof: The lifter is marked with a \* on the viewing side so that the print cannot be reversed in handling and the user always knows which side to view. Lifter: .005 Mylar with special crystal clear adhesive surface.

Cover: .010 Rigid vinyl black, white opaque or transparent acetate cover

## 1 1/2" × 2" Transoflips™

Sized for single fingerprint lifting.

## RubberGEL Lifters

You'll be impressed. Our new RubberGEL lifters are constructed of high-quality latex and a bonded low-tack adhesive gelatin layer. They're ideal for lifting dust prints (footwear) and developed latent fingerprints. Packaged in airtight foil packets, RubberGEL lifters are available in black, white and transparent.

## RubberGEL Footprint Lifters

These unique footprint lifters are designed to allow for an accurate transfer of foot or footwear prints from dusty and/or dirty surfaces. They are particularly useful when dealing with lightly covered surfaces because they don't generate static electricity like standard lifting tapes. Two 6" x 15" RubberGEL footprint lifters—one black and one white.

# Footprint and Palm Print Lifters/Evidence lifters

## Transparent Footprint Lifters

These unique lifters are coated with a supersensitive acrylic adhesive to lift the most minute particles. Lifters are 6" x 15" and come in a package of six with six 6" x 15" transparent covers.

CAT. NO.	DESCRIPTION	PRICE
8844 .....	6 Transparent Lifters with Covers .....	

## Palm Print Lifters

These 6" x 9" palm print lifters are large enough to lift an entire hand print! Each lifter is 5mm thick and available with black, white or transparent covers. Lifters come in a package of six with lifter covers.

CAT. NO.	DESCRIPTION	PRICE
PLB6 .....	6 Lifters w/ Black Covers .....	
PLT6 .....	6 Lifters w/ Transparent Covers .....	
PLW6 .....	6 Lifters w/ White Covers .....	

## Evidence Lifters

Here's another way to collect microscopic particles at crime scenes. Ace's evidence lifters work like tape. Just remove the backing and press against the area being examined. Lift and apply to an opaque white vinyl cover for safe keeping. You'll pick up dust and dirt particles, hair, fibers and other particles. Lifters are 6" x 15" and come in a package of 12 with 12 covers.

# Backing/Record Cards

## Black Backing/Record Cards

Our cast-coated backing cards feature a glossy, super smooth finish to preserve prints lifted with transparent or frosted lifting tape. Prints will virtually "jump out" at you for fast and efficient print classification and identification. One side of the large 3" x 5" card is blank allowing plenty of room for several rows of prints. The reverse side is preprinted for you to record information, such as date and case number, plus there's a roomy sketch diagram area. Cards come with a black backing for light powder prints.
