

# Invisible Detection

Designed for indoor use, Ace's invisible detection powder is perfect for dusting on a variety of objects—from computers to dollar bills.

## Invisible Fluorescent Detection Powders

Brilliant invisible fluorescent detection powders in various natural colors blend with nearly any background to eliminate visual detection. Good adhesion properties permit easy transfer from the object to hands or clothing. Just dust the object lightly with a powder that is of similar color. The powder transfers on contact and will fluoresce brilliantly when exposed to an ultraviolet light.

CATALOG NO.	POWDER COLOR	FLUORESCENCE COLOR	VOLUME	PRICE
10481	Pale Green Invisible Detection	Green	2 ounces	
10482	Buff Invisible Detection	Orange	2 ounces	
10483	Gray Invisible Detection	Green	2 ounces	
10484	White Invisible Detection	Blue	2 ounces	
10485	Pale Yellow Invisible Detection	Yellow	2 ounces	
10486	Black Invisible Detection	Green	2 ounces	
10487	Blue Invisible Detection	Green	2 ounces	

Designed for outdoor use, Ace's invisible fluorescent pastes work best on non-porous surfaces, such as metal boxes or mail boxes, parking meters and bicycles.

## Invisible Fluorescent Detection Pastes

Brilliant invisible fluorescent detection pastes are waterproof compounds that offer wide applications for outdoor situations or extremely smooth surfaces. When applied, the paste leaves a thin film that transfers readily to hands or clothing. Pastes do not dry out nor are they affected by rain or other inclement weather conditions. They are excellent for use on doorknobs, alarm pull handles, telephones, automobiles, bikes, etc.

CATALOG NO.	POWDER COLOR	FLUORESCENCE COLOR	VOLUME	PRICE
10391	Neutral Invisible Detection Paste	Green	1 ounce	
10392	White Invisible Detection Paste	Blue	1 ounce	
10393	Buff Invisible Detection Paste	Yellow	1 ounce	
10394	Gray Invisible Detection Paste	Green	1 ounce	
10395	Black Invisible Detection Paste	Green	1 ounce	

# Invisible Detection

## Invisible Metal Marking Ink

Mark all metal surfaces for identification of stolen articles such as tools, auto parts and retail goods. Ink dries rapidly, leaving an invisible film that fluoresces brilliant blue when exposed to UV light. To apply, use a cotton swab on any metal surface. After a few minutes the ink markings will dry and will not wear off. Available in a 2-ounce jar.

CATALOG NO.	DESCRIPTION	PRICE
1040	Invisible Metal Marking Ink	

## Invisible Writing Ink

Mark documents, currency, paper, fabric or other surfaces. Simply apply with a pen or cotton swab. The markings will be completely invisible. Dries immediately with no visible trace. Highly fluorescent. You won't see a thing until you expose the surface to an ultraviolet light. Choose from two quantities: 2 ounces or 16 ounces.

CATALOG NO.	DESCRIPTION	PRICE
10461	Invisible Writing Ink, 2-oz.	
10462	Invisible Writing Ink, 16-oz.	

## Invisible Coin Lacquer

Use Ace's invisible coin lacquer to mark money, appliances or other items. View results with an ultraviolet light. Available in a 2-ounce jar.

# Invisible Detection

Ace's invisible skin marking ink is often applied to a person's hands for identification purposes.

## Invisible Skin Marking Ink

Fast drying and highly florescent when exposed to ultraviolet light. Apply with a stamp pad or through other process. Available in a 16-ounce bottle.

CAT. NO.	DESCRIPTION	PRICE
1049	Invisible Skin Marking Ink	

Ace's invisible fluorescent crayons are used to mark money, mail, cloth etc.

## Invisible Fluorescent Crayons

Use Ace's invisible fluorescent crayons to mark money, merchandise, paper, cloth, etc. for i.d. and investigation purposes. Markings are highly fluorescent when exposed to longwave ultraviolet light. Press lightly when using to avoid leaving visible wax tracings. Crayons provide a permanent label, except where excessive washing or continuous heavy rubbing may wear off marking.

CAT. NO.	DESCRIPTION	PRICE
10381	Invisible White Crayon/fluoresces blue	
10382	Invisible Pale Yellow Crayon/fluoresces yellow	
10383	Invisible Pale Green Crayon/fluoresces green	

## Ultraviolet Criminology Kit

The ultraviolet criminology kit combines a wide selection of Ace's finest invisible detection materials. Comes in a convenient carrying kit with complete instructions.

Ultraviolet Criminology Kit comes with:
