

Personal Protection Masks

Panorama Nova Gas Mask

Panorama Nova full facepiece mask uses one size fits all technology to offer excellent fit for a wide range of facial types and sizes. Easy to replace polycarbonate lens provides wide field of vision. Nosecup is always included. Single cartridge system keeps cartridges out of line of vision. Each mask has a stainless steel speech diaphragm for excellent communication without amplification. Accepts all Dräger NIOSH approved cartridges, Dräger NBC canister and NATO NBC canisters. Canister sold separately (see below).

CAT. NO. 6559 PRICE:

NBC Canister

The NBC canister provides appropriate protection against nerve agents, blood agents, biological hazards, tear gas and a wide range of hazardous chemicals.

CAT. NO. 65591 PRICE:

Multi-Purpose Half Mask Regulator

If you have to be around a body in an advanced state of decomposition, you'll need our anti-putrefaction mask. The mask combines a latex-free silicone seal with a formed plastic shell outer body. The soft silicone conforms to the shape of every nose. The combination of soft silicone and hard plastic ensures a comfortable, leak-resistant fit to a typically hard-to-fit area. The unit is both compact and lightweight. It is excellent for use at the crime scene where decaying matter and hazardous vapors may be present.

Single and Double Mask Anti-Putrefaction Kits

If you have to collect evidence from a decomposing body, you'll definitely want to use our single mask anti-putrefaction kit, which comes with a carrying case, an anti-putrefaction mask, two replacement filters, a pair of disposable latex gloves, 12 cleaner towelettes and an instruction and log booklet. This double mask kit offers the same features as the single mask anti-putrefaction kit, only it comes double the contents.
