

# Physiological Fluid Tests

Contact stain on filter paper

Preparation shake

Crushing reagent ampoules

Reagent applied to suspect stain

Dischaps™ physiological fluid tests are designed to locate and identify blood and seminal fluid stains. Each test comes in a self-contained plastic tube with pre-measured reagents. They're disposable and always ready for use. To use, simply crush the ampoules and shake for about 30 seconds. Moisten a piece of contact filter paper with water, apply the contact paper to the stain and remove, then apply reagent to the contact paper (not the original blood stain.)

## Seminal Fluid Dischaps™

Also known as an acid phosphatase test, our seminal fluid Dischaps™ will identify semen stains. Dischaps™ come in a package of six individual tests. Sampling swabs and test strips included.

CATALOG NO.	DESCRIPTION	PRICE
2990	Seminal Fluid Dischaps™/6-pk.	

## Phenolphthalein Blood Test Dischaps™

With this test, blood stains will cause a pink stain on your test paper in seconds. Phenolphthalein Dischaps™ is considered very reliable and comes in a package of six individual tests. Sampling swabs and test strips included. Sensitivity: 1:100,000.

## Leuco-Malachite Blood Test Dischaps™

With this test, blood stains will cause an intense blue-green stain on your test paper in seconds. A longtime favorite for field work. Six individual tests per package. Sampling swabs and test strips included. Sensitivity: 1:300,000.

## Luminol Blood Test Dischaps™

This test is ideal for very old or invisible blood stains. You'll view test results in the dark to see luminescence. Six individual tests per package. Sampling swabs and test strips included. Sensitivity: 1:5,000,000.

2992	Package of 6 Leuco-Malachite Dischaps™	
2993	Package of 6 Luminol Dischaps™	

# Physiological Fluid Test Kits

## Physiological Fluid Test Kit

The physiological fluid test kit is a must for many investigators because it contains the four most effective tests—seminal fluid Dischaps™, phenolphthalein Dischaps™, leuco-malachite Dischaps™ and luminol Dischaps™—for detecting blood and semen stains. Not only will you find this kit easy to use in the field, but you won't destroy the original evidence stain to get results. Tests are pre-measured and prepackaged. Kit components come in a handy carrying case with testing paper, distilled water and an instruction book.

Physiological Fluid Test Kit comes with:

- 1-No. 97758 Molded Carrying Case
- 3-No. 29901 Seminal Fluid Dischaps™ tests
- 3-No. 29911 Phenolphthalein Dischaps™ tests
- 3-No. 29921 Leuco-Malachite Dischaps™ tests
- 3-No. 29931 Luminol Dischaps™ tests
- 1-No. 2995 vial of Distilled Water
- 10-No. 2996 Contact Test Strips
- Instruction Booklet

## Master Field and Lab Blood Test Kit

This kit contains all the essential equipment for blood testing in any field investigation situation. It has the advantage that all the reagents are furnished in pre-measured quantities in the solid state and sealed in glass ampoules. This method of packaging permits the mixing of reagents in the field without measuring to give optimum concentration and sensitivity. All the necessary support equipment is included. The kit and accessory equipment are also suitable for laboratory use. Through the use of this kit, the field investigator can prove the presence or absence of blood.

Master Field and Lab Blood Test Kit comes with:

- 18-No. FLBT1P Pipettes, Disposable, with Capillary and 3 ml bulb
  - 2-No. FLBT1FP Contact Filter Papers, 1" x 2", 25 each
  - 6-No. FLBT1L Luminol Ampoule Reagents
  - 6-No. FLBT1L1 Luminol Ampoule Reagents
  - 6-No. FLBT1LM Leuco-Malachite Ampoules 2
  - 6-No. FLBT1PH Reagent Ampoules, Phenolphthalein
  - 6-No. FLBT1PH1 Reagent Ampoules, Phenolphthalein
  - 2-No. DW1 Bottles of Distilled Water, 2 oz.
  - 2-No. FLBT1BCT Blood Collection Tubes, 7 ml., with EDTA
  - 1-No. FLBT1J Jar, Flint Glass, with Cap, 1 13/64 oz.
  - 15-No. FLBT1CB Cotton Balls
  - 1-No. 8603 Spray Power Unit with Tube
  - 1-No. FLBT11 Carrying Case, Vinyl Leatherette-Covered, with Steel Hardware
- Dimensions: 13 1/2" x 10 1/2" x 4 1/2"  
Weight: 4.5 lbs.
